RISK DISCLOSURES AND OTHER IMPORTANT INFORMATION

This material is neither an offer to sell nor a solicitation to purchase any security. Investors should carefully consider the investment objectives, risks, charges and expenses of Apollo Diversified Real Estate Fund (the "Fund"). This information and other important details about the Fund are contained in the prospectus, which can be obtained by visiting www.apollo.com. Please read the prospectus carefully before investing.

Investing involves risk, including loss of principal.

The Fund is a closed-end management investment company that is operated as an interval fund. The shares have no history of public trading, nor is it intended that the shares will be listed on a public exchange at this time. No secondary market is expected to develop for the Fund's shares. Limited liquidity is provided to shareholders only through the Fund's quarterly repurchase offers for no less than 5% and no more than 25% of the Fund's shares outstanding at net asset value. There is no guarantee that an investor will be able to sell all the shares that the investor desires to sell in the repurchase offer. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Due to these restrictions, an investor should consider an investment in the Fund to be of limited liquidity. The Fund is suitable only for investors who can bear the risks associated with the limited liquidity of the Fund and should be viewed as a long-term investment. Investing in the Fund is speculative and involves a high degree of risk, including the risks associated with leverage and the risk of a substantial loss of investment. There is no guarantee that the investment strategies will work under all market conditions. You should carefully consider which class of shares to purchase.

Investors in the Fund should understand that the net asset value ("NAV") of the Fund will fluctuate, which may result in a loss of the principal amount invested. The Fund's investments may be negatively affected by the broad investment environment and capital markets in which the Fund invests, including the real estate market, the debt market and/or the equity securities market. The value of the Fund's investments will increase or decrease based on changes in the prices of the investments it holds. This will cause the value of the Fund's shares to increase or decrease. The Fund is "diversified" under the Investment Company Act of 1940. Diversification does not eliminate the risk of experiencing investment losses. Holdings are subject to change without notice. The Fund is not intended to be a complete investment program.

The Fund will not invest in real estate directly, but, because the Fund will concentrate its investments in securities of REITs and other real estate industry issuers, its portfolio will be significantly impacted by the performance of the real estate market and may experience more volatility and be exposed to greater risk than a more diversified portfolio. The value of companies engaged in the real estate industry is affected by: (i) changes in general economic and market conditions; (ii) changes in the value of real estate properties; (iii) risks related to local economic conditions, overbuilding and increased competition; (iv) increases in property taxes and operating expenses; (v) changes in zoning laws; (vi) casualty and condemnation losses; (vii) variations in rental income, neighborhood values or the appeal of property to tenants; (viii) the availability of financing and (ix) changes in interest rates and leverage. The value of securities of companies in the real estate industry may go through cycles of relative underperformance and outperformance in comparison to equity securities markets in general. By investing in the Fund, a shareholder will not be deemed to be an investor in any underlying fund and will not have the ability to exercise any rights attributable to an investor in any such underlying fund related to their investment. The Fund's investment in Private Investment Funds will require it to bear a pro rata share of the vehicles' expenses, including management and performance fees. Also, once an investment is made in a Private Investment Fund, neither the Adviser nor any Sub-Adviser will be able to exercise control over investment decisions made by the Private Investment Fund. The Fund may invest in securities of other investment companies, including ETFs. The Fund will indirectly bear its proportionate share of any management fees and other expenses paid by investment companies in which it invests, in addition to the management fees (and other expenses) paid by the Fund.

The Fund is advised by Apollo Real Estate Fund Adviser, LLC ("AREFA"). AREFA is registered as an investment adviser with the SEC pursuant to the provisions of the 1940 Act, as amended. AREFA is an indirect majority-owned subsidiary of Apollo Global Management, Inc. The Fund's private real estate funds allocation is sub-advised by Aon Investments USA Inc. ("Aon"), an Aon Company. Aon is registered as an investment adviser with the SEC pursuant to the provisions of the 1940 Act.
